

VIGNAN SRI HARSHA BHIRAVABHOTLA

Madhurawada, Visakhapatnam (530048), Andhra Pradesh, India

Email: vignansriharsha.b@gmail.com

OBJECTIVE

Hands-on engineering and computer science candidate who is well versed in optimizing hardware, designing 3D models, and modifying systems. Applying for an undergraduate technology program that will help turn my technical knowledge into computational thinking and system architecture skills.

EDUCATION

Achievvers Junior College | Madhurawada, Visakhapatnam, India *Second Year (APBIE) – MPC Stream | Expected June 2026*

Focus: Mathematics, Physics, and Chemistry.

Kakatiya Public School | Visakhapatnam, India *Class X (CBSE Board) | Passed 2024*

Award: Received Principal's Commendation for "Student of Conduct" (Class X).

HONORS & ACHIEVEMENTS

SOF International Mathematics Olympiad (IMO): Gold Medalist (School Rank 1) for exceptional mathematical aptitude in Class X.

Digital Content Creator: Built tech/visuals with over 1 Million cumulative views across YouTube and Instagram.

Fine Arts Medalist: Won multiple Gold Medals in painting and Silver Medals in drawing competitions (Mother Teresa Foundation, ISKCON and Rangotsav).

Sports Meet 2024: Team Gold Medalist in the 10th Grade Annual Sports Meet.

Grasshopper Certification: Completed coursework in Java Programming fundamentals.

TECHNICAL PROJECTS & HANDS-ON EXPERIENCE

High-Performance Workstation Build:

- Built a custom desktop (Ryzen 5 3600, RTX 3060 Ti) from scratch, managing component selection and assembly.
- Optimized thermal airflow and BIOS settings to ensure stability for demanding tasks.

Android System Modification (Custom ROM):

- Unlocked bootloader and flashed a Custom ROM on a legacy Samsung device without external help.
- Navigated recovery environments (TWRP) to upgrade the Android OS beyond official support.

Electronics Repair & Restoration:

- Disassembled and repaired a non-functional humidifier by troubleshooting internal circuit failures.
- Modified a mechanical keyboard for acoustic optimization ("Creamy" profile) by manually lubricating switches.

3D Design (Blender):

- Self-taught 3D modeling to create hard-surface designs and abstract visualizations.

Photography & Videography:

- Self-taught Photography/Videography Proportions and Cinematic capturing landscapes.

COMMUNITY SERVICE

Kapardhi Foundation | Youth Volunteer (Since 2021)

- Assist in monthly essential resource drives for underprivileged families.
- Support logistics for humanitarian aid initiatives based on secular and Sanatan Dharma values.

(Note: Foundation Leader awarded by University of Global Peace, USA)

SKILLS

Languages: English (IELTS: 6.5), German (A1 - Elementary), Telugu, Hindi.

Technical Hardware: PC Assembly, System Troubleshooting, Android Flashing, Electronics Teardown.

Software & Tools: Blender 3D, Video Editing (DaVinci Resolve & Capcut), Java (Basics), Python (Entry-level).

Creative: Digital Photography, Visual Storytelling, Social Media Analytics.
